

Lenny: Hi it's me Lenny and this is Kitty and today we are going to build defences for our house.

Kitty: Wow! I'm so excited to build some defences today.

Lenny: Alright, but you'll have to be quick. We only have 10 seconds for the first round.

Kitty: Hey! Nooo. That's impossible! But I'll do my best!

Lenny: That's the spirit! We are going to have three rounds, so you'll have more time in the next rounds.

Kitty: 3 rounds? Sounds challenging, but I'm up for it!

Lenny: In Round 1 we will have 10 seconds to build a defence, so let's get started.

Kitty: Pfft! How is it even possible to build a defence in 10 seconds?!

Lenny: It's possible if you use your time wisely. In round 2, we will have a minute to build a defence.

Kitty: That's better. I guess I'll make it in round 2. And what about round 3?

Lenny: Round 3 will allow us to build a defence in 10 minutes, so get ready for the ultimate challenge!

Kitty: I am rooting for this round Lenny! C'mon let's go!! Lenny: Alright, let's go find a chest with all the necessary materials for our defences. I will run towards the house and find a chest.

Kitty: I hope we find some cool stuff in that chest. Lenny: Look kitty, This is my treasure chest. I've collected some great items here for our defence.

Kitty: oooooooo, I can't wait to see what's inside!

Lenny: In this chest, we are going to find everything we need to build a defence.

Kitty: Hmmm, let's see what we got here. This is so exciting!

Lenny: I think I'm gonna pick iron blocks and pumpkins for my defence. Kitty: Pumpkins? What for?

Oh, I see, you're going to make golems, right?

Lenny: Yes, that's right. What are you gonna take, Kitty?

Kitty: Ummm, I'll have a cobweb. It might come in handy.

Lenny: Alright, let's grab our items and get started. So, we both have picked up the items. Let's get out of here.

Lenny: C'mon Kitty! It's time for Round 1! We got 10 seconds to build our defence. 3.. 2..1 ... Go!

Lenny: I will start with building Iron Blocks! Ah just 4 of them. Let's see how you're doing, Kitty!

Kitty: Look how well I did with the spiderwebs. I know I'm so cool, right?

Lenny: Yes, you are! But, oh no! It's almost night.

Kitty, hurry up and help me defend our house! See there are so many creepers. Kill them all.

Kitty: Hey creepy creeper, stay away from me. I'll try my best to defend the house.

Lenny: Yes, just keep a look around. Don't let them attack you.

Kitty: Watch out Lenny! On your back. Be careful!

Lenny: Thanks, Kitty! Phew, that was close! DAYBREAK

Lenny: Let's go inside the house and gather materials for defence. Have you decided what to pick,

Kitty?

Kitty: Yep! I know exactly what I am picking! Campfire!! It might be useful to keep us warm

Lenny: Whoa! Kitty You're fast! Wait for me.

Kitty: Haha!

Lenny: Look what we got here. I think I'm gonna pick Obsidian and End crystals, Dispenser, Redstone

Dust, Lever.

Kitty: Hmmm.. Campfire, Lava bucket, what else do we have? Ah I cannot forget spiderwebs.

Lenny: Let's go build the best defence in the history of Minecraft

Kitty: Alright! Let's go!

(They gather the materials and head towards their house.)

Lenny: I'm gonna build a strong wall around the house this time. Good Job kitty! You have almost built the whole wall of campfire.

Kitty: Yeah, I'm fast! Lenny: Hmm Let's figure out the best spot to build Obsidian Block Wall. I'm thinking we can build it near the lava pool.

Kitty: Meanwhile, I'd build a wall of spiderwebs. The zombies will be tangled up before they even reach our walls!

Lenny: Yes, do it! My wall is definitely the strongest since I'm using Obsidian and End Crystals.

Perfecto!

Kitty: Oh is it? I bet my spiderweb wall is just as effective. We'll see who's right at night, Lenny!

Lenny: I can't wait to see it too Kitty!

(Night falls and the zombies start to attack.)

Kitty: Look at them! They're everywhere!

Lenny: Quick, activate the dispensers! They'll shoot arrows and take them down.

Kitty: And look at my spiderweb wall! It's working!

Lenny: And my Obsidian wall is holding up strong!

Kitty: This is so exciting! Lenny: We did it! We defended our house from the zombies.

Kitty: That was so much fun! Can we do it again?

Lenny: Of course, we can! Let's prepare for round three.

(They gather materials for the final round.)

Lenny: Okay, we have ten minutes this time, so we can be more creative with our defence.

Kitty: Yes, I'm excited to try something new.

Lenny: I think we should build a moat filled with lava around our house.

Kitty: And I can build a trapdoor system so that we can cross it safely.

Lenny: That's a great idea! Let's get started.

(After ten minutes)

Kitty: And done! Our moat is complete!

Lenny: And my trapdoor system is in place. We can cross it without getting burned.

Kitty: This is the best defence yet! Lenny: I agree! Let's see how it holds up at night.

(Night falls and the zombies approach.)

Kitty: Look at them trying to cross our moat!

Lenny: And they're falling right into our trapdoor system!

Kitty: This is too easy!

Lenny: We did it again! Our house is safe.

Kitty: I had so much fun! Can we play again tomorrow?

Lenny: Definitely! I can't wait to see what other defences we can come up with.
